2 x Pioneer CDJ 2000 nexus

4. RESTRICTIONS

Please read carefully this point and be aware of the strict noise regulation applied in Switzerland. We thank you in advance for your good collaboration in that matter.

.The Swiss Law limits the power amplification where the audience is the most exposed, that is to say **100 dBLAeq measured during the show**

The person responsible for those measurements as well as the sound engineer of the stage will insure that this law is duly respected. The sound level will be measured during all shows with the help of a soundmeter according to norm CEI n°651 and CEI n°804, calculated on a basis of 60 minutes.

The Artist and his staff, including his sound engineer, shall respect this law.

La Gravière/ Chemin de la Gravière 9, 1227 Genève
